International Conference on the Software and Systems Process 2019

(ICSSP 2019)

Registration

Registration for the 2019 International Conference on the Software and Systems Process (ICSSP 2019) is now open.

Registration is via the ICSE 2019 web site. This will enable an ICSSP 2019 attendee to also register for ICSE 2019 and/or other ICSE 2019 co-located events, making a single payment for all registrations.

Early Bird registrations are available until 1 April. After this date registration rates will increase.

To register, go to https://2019.icse-conferences.org/attending/registration where you can see the list of rates for ICSE and ICSE co-located events including ICSSP.

Note that registering for ICSSP covers attendance at the ICSSP Social Event (Evening of Saturday 25 May). We expect that it will be possible to purchase additional ICSSP social event tickets on site.

You have to select the Online Registration Form and complete most of the registration process before you can select ICSSP and any other ICSE events you want to register for.
